## Integrated Intelligent Parking

Park automatically with the help of the help of our state-of-the-art Surround Vision and Collision Avoidance Radar System. Utilizing cutting-edge radar sensors and cameras, it seamlessly detects obstacles and parking lines, identifies optimal parking spots, and autonomously manages steering, gear shifting, and braking operations for a stress-free parking experience.

## Track Reversing

Track back your trails with our Track Reversing feature. Seamlessly integrated into gear D, it memorizes your last 50 meters of forward movement, allowing you to effortlessly navigate back to your starting point with unparalleled ease. The system takes command of steering, braking, and throttle, ensuring an effortless return along your recorded route.

## Transparent Chassis

Experience unparalleled visibility of your surroundings with our advanced panoramic view system, designed to memorize the imagery of the driving environment. The system seamlessly integrates ground video information with real-time road positioning, offering a comprehensive view of the terrain under the car and ensuring enhanced safety and confidence on every journey.

## Conqueror's perspective

Enhance your off-road experience with our innovative front body camera, eliminating blind spots and providing a clear view of previously hidden roads. Enjoy safer and more convenient off-road journeys with improved uphill visibility.
